

SECTION 03350 - CONCRETE TOPPING

A. SUMMARY

1. Standard aggregate toppings.
2. Heavy-duty metallic aggregate toppings.
3. Mechanically ground topping finishes.

B. MATERIALS

1. Standard Aggregate Topping:
 - a. Compressive Strength (28 Day): **[3500 psi (24.1 Mpa)] [5000 psi (34.5 MPa)]**.
2. Heavy-Duty Metallic Aggregate Topping:
 - a. Compressive Strength (28 Day): 10,000 psi (69 MPa).
 - b. Thickness: **[3/4 inches (19 mm)] [1 inch (25 mm)] [1-1/2 inches (38 mm)]**.

C. INSTALLATION

1. Application: **[To fresh concrete] [To hardened concrete]**.
2. Finishing: **[Float] [Trowel] [Ground surface]**.
